Color Profile: #E6A984

Common Name: Benjamin Moore Myrtle Beach

RGB: (230, 169, 132)

HSL: (29°, 60%, 73%)

Contrast vs White: 4.5 (AA pass)

Contrast vs Black: 8.8 (AA pass)

Mood: This warm, soft tan is often associated with comfort and tranquility. It gives off an inviting and subtle energy, perfect for creating cozy, relaxed atmospheres. Ideal for spaces that seek a gentle touch of elegance, it sits nicely between peach and beige, offering warmth without being overpowering.

Close Matches:

- Benjamin Moore Myrtle Beach (#E6A984) - Exact match
- Behr Ceramic Glaze (#EBA785) - Similar warm beige with a more yellow hue
- Jotun Light Tangerine (#EAB184) - A lighter variant with more orange tones
- Kelly Moore Trattoria (#E7A587) - A soft, muted blend of orange and brown
- PPG Paints Orange Clay (#E6A57F) - Slightly more brownish, but still in the same warm range

Why Designers Use It

This color is frequently used in interior design to evoke a sense of warmth and relaxation. It fits well in home spaces like living rooms, kitchens, and bedrooms where comfort is paramount. Often seen in modern designs, it's a favorite among those who appreciate subtle elegance over bold, brash colors. Its neutral yet warm tone makes it highly versatile across multiple styles, from contemporary minimalism to rustic, natural environments. Its natural, earthy appeal is sometimes linked to the calm of sandy beaches or the smoothness of natural stones, and it's often used in design for wellness-focused brands or products.

Being a popular choice in both residential and commercial spaces, especially in hospitality industries such as hotels or restaurants, it evokes trust and approachability. Designers also use it for its ability to complement a wide range of other hues, particularly darker tones or accent colors like golds, blues, and

forest greens. It is notably timeless, not leaning too much into trendy spectrums, but instead offering a grounding presence that can be both sophisticated and homey.
